EDUCATION FOR
CONSTANT DEVELOPMENT

THE LEGACY OF ALTE UNIVERSITY

Established in the year of 2001, Alte University stands as a beacon of educational excellence in the heart of Georgia's capital, Tbilisi.

The name "ALTE" epitomizes our mission. "ALTE" is a Latin word and means zenith, highest point. Derived from the concept of the highest point and the journey to attain it, it symbolizes our commitment to guiding individuals towards their zenith.

At Alte University, we believe in harnessing education as the cornerstone for perpetual personal growth, paving the way for individuals to realize their fullest potential.

OUR MISSION

Our mission is to provide an exceptional learning and teaching environment underpinned by the latest teaching pedagogies and technology that empowers individuals to unlock their full potential and achieve more than they thought possible.

We are dedicated to cultivating a vibrant academic community where knowledge is discovered and shared through applied research, innovation, and interdisciplinary collaborations.

Recognizing the global nature of today's challenges and opportunities, we foster cross-cultural understanding, facilitate international collaborations, and provide transformative experiences that prepare our educational community to thrive in a multicultural society.

With the transformative power of education, we drive positive change in society and through partnerships and community engagement, we actively seek to address local, national, and global challenges.

OUR VISION

By 2031, we will be recognized as one of the leading private universities in Georgia and the region, offering exceptional, future-proofed learning experiences underpinned by applied research on local and global challenges, transforming our students to work-ready global citizens and positively impacting our community, society, and the environment.

STUDY FUNDING

At Alte University, special attention is given to students' academic achievements. Each year, high-achieving students have the opportunity to receive the Dean's Grant:

30% 50%
100%

This approach encourages motivated young people and enables them to continue their educational journey without financial barriers - giving them the opportunity to reach new heights.

PROJECTS AND INITIATIVES

Alte University annually implements large-scale projects that bring together students, school pupils, teachers, and professionals both locally and internationally.

OUR MAIN PROJECTS INCLUDE

- | **International Staff Week** – a week of international collaboration where representatives of European and Asian universities share their experiences
- | **Technovation Girls** – a global initiative supporting girls' involvement in technology
- | **Teens in AI** – a program promoting teenagers' engagement in artificial intelligence
- | **Start-up Marathon** – an annual innovation competition for students and school pupils
- | **Career Camps** – career-oriented camps where young people learn how to choose their professional path
- | **Trainings for Teachers** – professional development and upskilling programs for teachers
- | **STEM Olympiad** – an innovative competition for youth interested in science and technology
- | **NASA Space Apps Hackathon** – one of the world's largest innovation hackathons, where Alte University is the official partner in Georgia
- | **Arduino Hackathon** – technology competitions in engineering and programming

These projects provide Alte University students and partners with real opportunities for international exposure and professional growth — giving them an extra chance to reach new heights.

STUDENT LIFE AND UNIQUE STUDENT SERVICES

At Alte University students have the opportunity to turn their interests and initiatives into reality, reach new heights, and create new experiences.

ACTIVE CLUBS

E-sport Club – a space for electronic sports and cyber competitions

Lumen Vita Club – a club for art and creativity

Alte Student Research Unit (ASRU) – a platform for student research and innovation

Beyond Border Club – a club for intercultural friendship

If a student has a new idea, they can create their own club, become its leader, and plan activities.

INNOVATIVE CAMPUS AND MODERN LABORATORIES

CAMPUS IN THE CITY CENTER

Alte University's academic campus is located in the heart of Tbilisi and offers students modern infrastructure where they can study, relax, and develop their creative skills.

INNOVATIVE LABORATORIES AND SIMULATION CENTERS

Alte University students have access to spaces that connect their future professions with real-world experience. These are spaces where theoretical knowledge transforms into practical skills, allowing students to reach new heights every day:

- | **Center for Innovation and Entrepreneurship** – a platform for developing startup ideas
- | **CISCO Laboratory** – international certifications and enhancement of digital skills
- | **Electronics Laboratory** – practical learning in engineering and technology
- | **Graphic Design Laboratory** – creative projects and visual innovations
- | **Simulated Processes Hall** – practical training for law students
- | **OSCE Center** – essential practical simulations for medical education
- | **Simulation Clinic** – a learning process as close to real-world conditions as possible
- | **Dental Phantom Center** – skill refinement according to modern dentistry standards

INTERNATIONAL OPPORTUNITIES

GLOBAL EXPERIENCE

Studying at Alte University directly opens the path to the international world for students. Our priority is internationalization — engaging students and academic staff in exchange programs, collaborative research, and international projects.

ERASMUS+ AND EXCHANGE PROGRAMS

Alte University students have the opportunity to study and gain experience at leading universities in Europe, the USA, and Asia. Erasmus+ programs and bilateral agreements allow them to become part of the global academic community.

INTERNATIONAL NETWORKS AND ORGANIZATIONS

Alte University is a member of leading European and worldwide associations, further strengthening its reputation on the global stage.

INTERNATIONAL PARTNERS

Alte University closely collaborates with
60+ UNIVERSITIES WORLDWIDE

AMONG THEM

- | Università di Roma Tor Vergata (Italy)
- | New Jersey City University (USA)
- | Lanzhou University (China)
- | ALBA Business School (Greece)
- | Deggendorf University (Germany)
- | Bharath University (India) etc.

This partnership gives students the opportunity to participate in exchange programs, gain international experience, become part of global projects, and share knowledge alongside representatives from different countries around the globe.

CONFUCIUS INSTITUTE AT ALTE UNIVERSITY

The Confucius Institute at Alte University offers a refined atmosphere and state-of-the-art learning environment. The Institute offers a modern, well-equipped learning environment, complete with a Chinese library, cultural experience space, conference and lecture halls, and dedicated administrative areas.

A wide selection of Chinese language courses is available - from beginner to advanced levels - including HSK and YCT preparation, Chinese for children, and cultural immersion programs. The Institute also serves as the official HSK, HSKK, and YCT test center in Georgia.

In partnership with Lanzhou University, students can participate in summer camps or apply for study scholarships in China (minimum requirement: HSK Level 3).

Courses begin each March and October, welcoming learners of all ages. Alte University students enjoy free enrollment, while external applicants can register through the official Facebook page of the Confucius Institute at Alte University.

It is important to note that the Confucius Institute operates in only two universities in Georgia.

INTERNATIONAL ACHIEVEMENT OF ALTE UNIVERSITY'S CONFUCIUS INSTITUTE

The Confucius Institute at Alte University received special recognition and won the Grand Prize at the central event held in Beijing for the international competition "2025 CI Moments Global Short Video Collection Event."

The award was granted for the video project titled "Tea and Chinese Characters Across Mountains and Seas."

EMPLOYMENT OPPORTUNITIES

A SUCCESSFUL CAREER BEGINS HERE!

At Alte University, it is important that students not only receive a high-quality education but also achieve their goals and create value for the society in which they live. Our priority is to be their constant partners and support their employment and continuous career growth.

HOW ALTE UNIVERSITY SUPPORTS STUDENTS

CAREER DEVELOPMENT OFFICE

A dedicated structural unit that helps students build career skills, prepares them for meetings with potential employers, and continuously expands the list of partner organizations

ALTE ALUMNI COMMUNITY

A network of graduates where sharing experiences and discovering new opportunities is a natural extension of a student's career

INDUSTRY DAYS

exclusive events where students meet potential employers face-to-face

FOUNDERS' NETWORK

Alte University's founders are professionals with many years of experience in the banking and private sectors, supporting students in their career advancement

EXPANDING CONNECTIONS

At Alte University, lecturers bring firsthand experience from leading roles in Georgian and international business, law, and security — giving students direct access to valuable networks and career opportunities

200+ PARTNER ORGANIZATIONS

Alte University actively collaborates with both public institutions and leading private sector companies. Their number already exceeds 200, offering students and graduates real opportunities for internships and employment.

INTERNATIONAL MEDICAL SCHOOL

MEDICAL DOCTOR PROGRAM

The aim of the medical program at Alte University is to prepare internationally qualified, highly skilled medical professionals by instilling contemporary skills, values, and methods in both practical and theoretical applications of medicine.

The course offers integrated teaching with an innovative approach, to provide both basic and clinical understanding of organ systems, as well as developing the necessary knowledge, skills, and values required for the field of medicine.

ON-CAMPUS CLINICAL TRAINING

Our MD program provides a structured, hands-on learning experience through on-campus simulation and OSCE centers, ensuring clinical competence and professional readiness:

- | Fully equipped simulation and OSCE centers offering realistic clinical training.
- | Immersive, technology-enhanced learning utilizing VR and case-based scenarios.
- | WFME-accredited medical education, ensuring international qualification and competency.
- | A structured environment for skill development, fostering clinical excellence from day one.

BEST CLINICAL EXPERIENCE IN THE COUNTRY

Alte University has an exclusive partnership with “Vian” - the largest healthcare service provider in Georgia, giving our students privileged access to the Ivane Bokeria University Hospital, the affiliated clinic of the university. This partnership ensures that only Alte University students can take advantage of the hospital’s state-of-the-art facilities and gain daily hands-on clinical training.

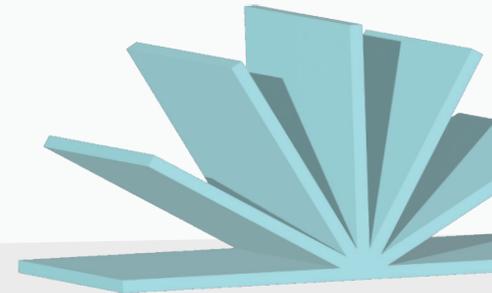

KEY HIGHLIGHTS OF IVANE BOKERIA UNIVERSITY HOSPITAL

- | 6,000+ unique medical services provided annually
- | 800+ healthcare professionals supporting student training
- | Cutting-edge labs and advanced medical technology
- | Specializing in minimally invasive surgery techniques
- | Over 1,200 general surgeries each year
- | More than 500 maxillofacial surgeries annually
- | Over 350 cardio surgeries performed annually
- | 250+ neurosurgeries conducted annually
- | 2,000+ therapy patients annually treated

MEDICAL DOCTOR PROGRAM

Degree Awarded: Medical Doctor
Teaching Language: English
Annual Tuition Fee: \$5 950 USD
Program Duration: 6 years /12 semesters

DENTISTRY PROGRAM

Alte University's dentistry program is designed to provide students with in-depth knowledge and hands-on clinical experience in line with international dental education standards. The curriculum focuses on developing both practical and research skills, preparing students for a successful career in dentistry.

To ensure high-quality training, the university collaborates with leading dental clinics equipped with modern technologies and staffed by experienced professionals. These partnerships allow students to gain real-world clinical exposure and refine their expertise in a professional environment.

Understanding the critical link between oral health and systemic diseases, the program integrates systemic disease training as part of its curriculum. Through collaborations with multidisciplinary clinics, students gain practical experience in diagnosing and managing systemic conditions, ensuring a holistic approach to patient care.

DENTISTRY PROGRAM

Degree Awarded: Doctor of Dental Medicine

Teaching Language: English

Annual Tuition Fee: 4 500 USD

Program Duration: 5 years / 10 semesters

ON-CAMPUS DENTAL CABINET

The Dentistry program at Alte University places a strong emphasis on practical skill development through immersive, hands-on learning. The on-campus Dental Cabinet is equipped with advanced phantoms, providing students the opportunity to practice and perfect dental techniques in a safe, simulated environment.

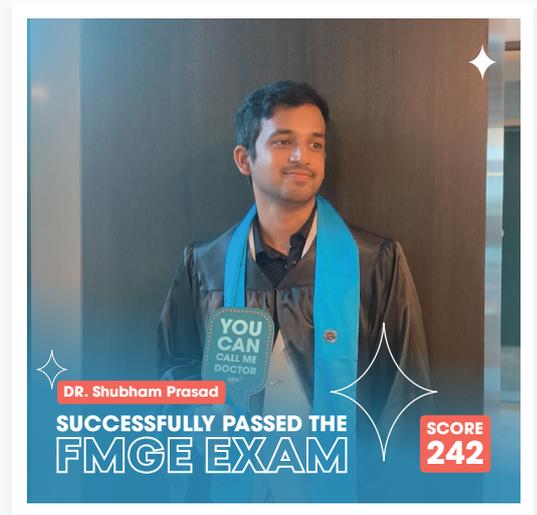

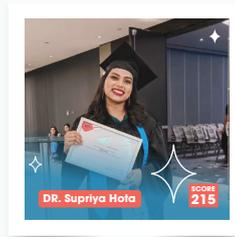

This facility offers a unique platform to refine essential skills and gain valuable clinical experience—all within the campus. It ensures that students are thoroughly prepared to transition into real-world practice with confidence and competence.

SUCCESSFUL GRADUATES

Our graduates are successfully passing national exams in their respective countries. For example in 2024 during the winter session Foreign Medical Graduate Examination (FMGE) in India 65% of our graduates that attended exam have passed it while average passing percentage in India was 28%. This accomplishment is a testament to the high quality of education and training they received throughout the MD program at Alte University.

We take immense pride in the fact that our MD program is thoroughly designed to align with international standards. This ensures that our graduates are not only well-prepared for the FMGE but also equipped with the knowledge and skills needed to excel in the global medical arena.

IT SCHOOL

IT School has been established in 2022. The goal of IT school is to give students broad and in-depth theoretical knowledge and to develop unique, practical skills that will support and help each of them to achieve professional success.

IT school's main priority is to prepare competitive and qualified specialists for the international employment market based on the world labor market requirements. The school's highly skilled academic/scientific and invited staff, modern and innovative teaching methods and employment-oriented approaches help our students to become outstanding, creative, highly qualified professionals.

DIY Inventor

COMPUTER SCIENCE PROGRAM

The aim of the Computer Science Program is to prepare graduates who can analyze and develop existing software products using the theoretical and practical knowledge of computer science acquired during the program. Students also learn how to design and build new software for various needs, applying modern technologies and adhering to ethical standards. Moreover, the program helps graduates develop the ability to continue learning independently, adapt to the rapid changes in the field of computer science, and pursue further studies at the next academic level.

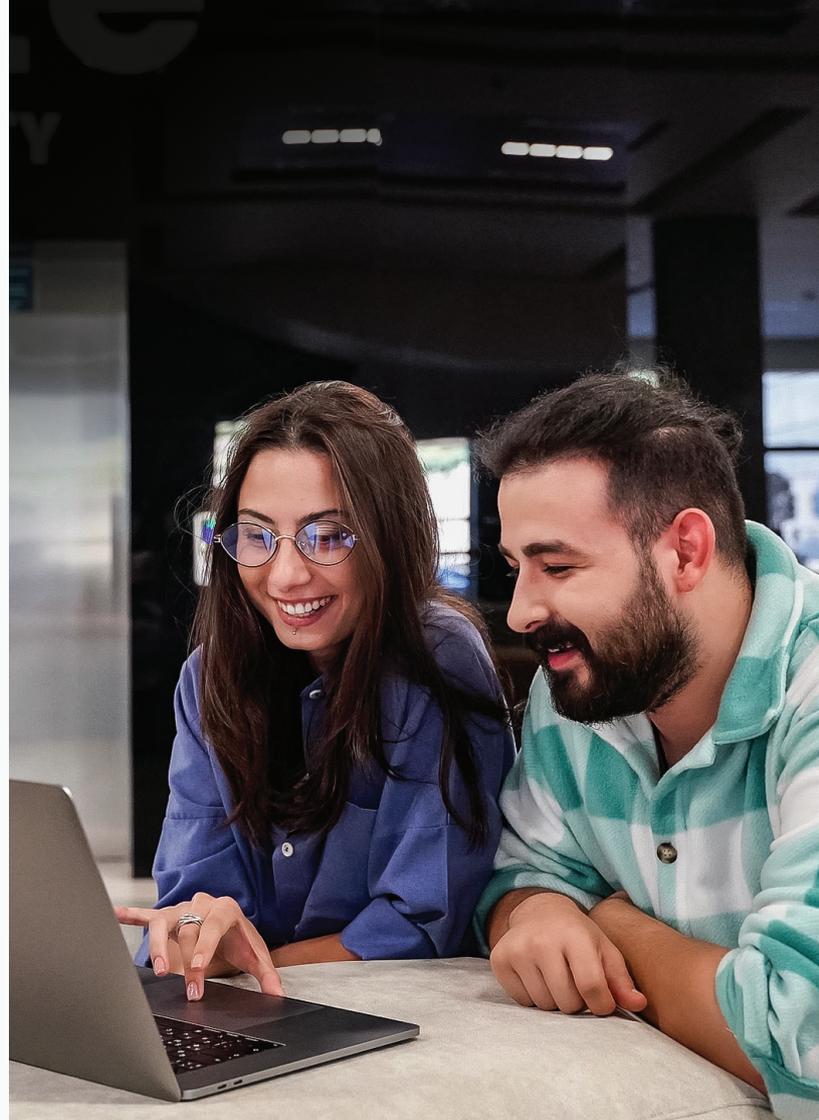

PROGRAM DETAILS

Degree Awarded: Bachelor of Computer Science

Teaching Language: English

Annual Tuition Fee: 3 500 USD

Program Duration: 4 years / 8 semesters

INTERNATIONAL CERTIFICATION

Alte University's Computer Science Program integrates training courses from international academies such as Cisco Systems and AWS (Amazon Web Services). This gives students the opportunity, upon graduation, to earn internationally recognized certificates in the field of IT and become globally competitive professionals.

Cisco Systems Inc. - a global IT and cybersecurity education program is partner of Alte University that give unique opportunity to the students to get Cisco Academy International Certificate in parallel with the bachelor's academic degree;

AWS Academy provides Alte University with free, ready-to-teach cloud computing curriculum that prepares students to pursue industry-recognized AWS Certification and in-demand jobs. It's curriculum helps educators stay at the forefront of AWS Cloud innovation so that they can equip students with the skills they need to get hired in one of the fastest-growing industries.

Alte University is an associate member of the **SAP University** Alliances, a global academic network connecting thousands of universities worldwide. Through this partnership, students and academic staff gain access to SAP's educational resources and learning platforms, supporting the integration of modern digital technologies and providing practice-oriented experience in business and information technology.

INNOVATIVE LABORATORIES OF THE IT SCHOOL

Innovative centers and laboratories in the IT school give students the opportunity to gain practical experience, develop and test new ideas, work with modern technologies, and engage in real projects. This helps them grow professionally, develop innovative thinking, and be better prepared for their future careers.

- | Center for Innovation and Entrepreneurship
- | CISCO Laboratory
- | Electronics Laboratory
- | Graphic Design Laboratory

BUSINESS SCHOOL

UPDATED PROGRAMS AND INTERNATIONAL PARTNERSHIPS

The goal of the Business School is to prepare growth-minded bachelor's and master's students with entrepreneurial thinking and drive, who will be globally competitive. Our graduates will possess in-depth knowledge and transferable skills in marketing, management, finance, and entrepreneurship — enabling them to both create their own successful businesses and make a significant contribution to the growth of existing companies.

Our School offers students the opportunity to study entrepreneurship from the very first semester, to develop and implement their business ideas through the “Center of Innovation and Entrepreneurship”, and to benefit from internal funding and scholarship programs.

EXCLUSIVE OPPORTUNITY TO EARN TWO DIPLOMAS!

Alte University is launching new partnerships with **Montpellier Business School (France)**, **Salford Business School (UK)**, and **Malta Business School**, offering students a unique opportunity to pursue a Bachelor of Business program - 2 years in Georgia and 1 year abroad (in the UK, France, or Malta) - and graduate with two diplomas.

**NEW PROGRAM TO BE LAUNCHED
FROM SEPTEMBER 2026**
